

Rack Supported RSA

safer storage systems

Overview

Also known as a mezzanine floor, a raised storage area is the ideal way to make use of the height of your warehouse. This demountable structure offers heavy duty capacity, and can easily be removed or reconfigured to suit your business needs. Add shelving above and below to create a fully customised storage space.

Our rack supported mezzanine floors are designed to meet the Australian Building Code with a load rating of 5KPA.

Applications

- Additional product storage
- Archiving
- Work area
- Office space

Features

- Find additional floor space in your existing warehouse/factory.
- Temporary structure can be removed or relocated easily.
- Each solution is tailored to suit the individual site.
- Shelving and binning can be added above and below the mezzanine system.
- Possible to add additional levels.
